Prescribing with AccuMix Pharmacy

Your patient asked us to share this with you. Here is who we are and how to send us a prescription.

PATIENT NAME	DATE OF BIRTH	MEDICATION TO DISCUSS

Who we are

- A 503A sterile and non-sterile compounding pharmacy in Elmhurst, Illinois.
- We compound for individual patients, on a prescription from a licensed provider.
- A team led by board-certified pharmacists, available to you and your staff by phone.
- LegitScript-certified pharmacy website (October 2026).
- Licensed states: accumixrx.com/states-we-serve

Therapy areas

- **Weight management:** GLP-1 and GIP/GLP-1 injections, sublingual, oral capsules
- **Peptides and wellness:** NAD+ injection, sermorelin, oxytocin nasal spray
- **Allergy immunotherapy:** SCIT vial sets for clinics, SLIT drops for home use
- **Sexual health:** Scream Cream (compounded); sildenafil and tadalafil tablets (generic)
- **Dermatology:** clascoterone topical serum, at the strength you prescribe
- **Coming soon:** hormone therapy, IV therapy and further dermatology preparations; ask us for the current list

How to send a prescription

- **E-prescribe to** AccuMix Pharmacy, 655 W Grand Ave, Ste 240, Elmhurst, IL 60126
- **Or fax to** 866-817-5305
- Each provider also receives their own login to our provider portal to place orders and track prescriptions.

What helps us fill it without delay

- Patient name and date of birth, medication, strength, dosage form, directions, quantity, refills and allergies.
- When the preparation is similar to a commercially available product, a brief note of the patient's clinical need is helpful.

After you prescribe

- A pharmacist verifies every prescription.
- Our turnaround time is 24 hours.
- Orders ship to the patient in temperature-controlled packaging. On request, a patient-specific order can ship to your clinic.

Quality

- Sterile compounding under USP <797>, in ISO Class 5 hoods inside ISO Class 7 cleanrooms.
- Every sterile batch is tested for sterility and endotoxins.
- Ingredients from FDA-registered suppliers. Every preparation is traceable by lot.
- Potency is tested regularly and whenever the source of an active ingredient changes.
- Certificates of analysis for the API lot and for the batch are available on request.
